

- **Protects Membranes from Damage**
- **Good Puncture Resistance**
- **Easy to Install**

Description

Visqueen TreadGUARD300 is A Medium Duty Protection Layer preventing damage to Visqueen damp and gas-proof membranes. TreadGUARD300 is a non-woven needle punched geotextile made of high tenacity virgin polypropylene fibres designed for medium duty applications. The product is supplied in 2m x 75m roll format.

Application

TreadGUARD300 protects loose laid membranes against damage from following trades or the process of positioning spacers and steel reinforcement prior to laying a concrete slab. The product can also be used beneath Visqueen gas protection membranes where a permeable fill is being used.

Visqueen TreadGUARD300 is designed for medium duty protection applications. For heavy duty applications consideration should be given to the use of Visqueen TreadGUARD1500.

Installation

TreadGUARD300 rolls are positioned above the membrane and loose laid. Adjacent sheets of the protection layer should be overlapped by at least 150mm and secured using VisqueenPro Single Sided Jointing Tape applied equidistant over the junction. Apply pressure to the tape to ensure adhesion. Ensure surfaces are clean and dry prior to application of tape.

In windy conditions Visqueen TreadGUARD300 should be loaded (sand bags) to ensure the blanket remains in position.

Storage and Handling

The material is not recommended for uses where it will be exposed to long periods of outdoor weathering and exposure to ultraviolet light. Store in a clean and dry environment. Care should be taken when handling.

VISQUEEN
BUILDING PRODUCTS

Appendix A

Visqueen Building Products

Visqueen is the market leader in the manufacture and supply of structural waterproofing and gas protection systems. Visqueen offers the complete package - a proven, reliable range backed by a technical support service that goes unmatched in the market - everything you would expect from a reputable and ethical company.

System Accessories

To ensure full waterproofing protection please use the following certified system components:

- Visqueen High Performance (HP) Tanking Primer
- Visqueen TreadGUARD1500
- Visqueen Protect&Drain
- Visqueen Top Hat Unit
