Key to Components :-
1) Visqueen Welded Wrap Membrane.
2) Visqueen Corner Protection Units.
3) UDG Protection Boards.
4) Visqueen TreadGUARD 300.

On brownfield sites or where there is ground contamination please seek further advice from Visqueen Building Products, as the use of other Visqueen Geomembranes may be necessary.

Factory welded Visqueen UDG must be used when AquaCell units are to be installed below the ground water table or where ground movement is anticipated. For further information regarding the installation of AquaCell below the ground water table, please contact Wavin Technical Services on 01249 766655.

NB: DO NOT SCALE - USE FIGURED DIMENSIONS ONLY.
